CORESTACK

Certificate of Completion

This is to certify that, **Arun Natarajan** has successfully completed an internship program at CoreStack Inc which lasted from **June 03, 2024** to **July 12, 2024**. During this period, Arun was engaged in a project titled "Cloud Cost data simulation Framework". The project aimed to develop an advanced data framework for validating various Cloud Governance scenarios ahead of time. This project was developed using Python and MongoDB. Arun demonstrated commendable skill in handling the project tasks, showcasing proficiency in both the technical and conceptual aspects of the development process. Arun's contributions to the project were invaluable, and the skills, diligence, and creativity displayed have been commendable. This certificate is awarded in recognition of Arun's dedication, hard work, and significant contributions to the project's success. We wish Arun all the best in future endeavors and are confident that the experience gained during this internship will be beneficial in future professional pursuits.
